

THERMOPLASTIC SUBMERSIBLE UTILITY PUMPS

Thermoplastic construction, corrosion-resistant, submersible utility pumps are portable and lightweight. Ideal in any application where you need to remove water where it is not wanted. Perfect for pumping basements, draining puddles and pumping from cisterns and sumps. Also featured is the new, automatic utility pump – the IntelliPump™. Just plug this pump in and it automatically checks for traces of water. It's the utility pump with a brain.
